Introducing **Deeetro**

Bio

Deeetro is a Milan-based DJ deeply rooted in the world of vinyl digging. With over five years dedicated to **building an ever-expanding collection of more than 1,000 records**, his sets are a direct reflection of his passion for unearthing rare and timeless sounds.

His musical identity is shaped by **Minimal House** from 1995 to 2010, but he seamlessly blends elements of Electro, Tech House, and Breakbeat, always staying within the boundaries of House and Minimal. His approach is about crafting long, organic mixes where records merge effortlessly, creating a sound that feels both personal and unique.

Deeetro has already **performed in Milan** for Fluids Diffusion and abroad **in Amsterdam**, always delivering sets that stand out for their deep musical selection and immersive transitions.

His commitment to vinyl takes him across Europe, constantly exploring the most remote record stores **in search of the perfect track** for each occasion. This relentless pursuit of music discovery defines his DJing philosophy.

Dj

Based in **Milan, Italy**

For Deeetro, every set is more than just a performance; **it's a carefully curated journey through sound**, where each record tells a story, and each mix unveils a new dimension of groove.
